Dear Public Service Commission PSC,,

Im currently living on a fixed income,before this hurricane we were doing ok but now with all the damage done to our home and property we have to be very wise with how our finances are spent.We are already facing higher utilities the sewer has doubled in cost!! Don't know how we're gonna be able to pay higher electric bills unless we stop using our ac!! Please reconsider this rate hike for all of those people who live here!!As a Floridian age 50+, we are coping with skyrocketing healthcare and housing prices with minimal increases in Social Security. An increase on our monthly power bill adds up for people, like myself, who are on a limited or fixed income.

Increasing our rates will only damage Florida communities by making it harder for people to afford daily living necessities.

Sincerely,

Mrs. Lisa Kapoi
