Public Service Commission PSC, PSC,
FL

Dear Public Service Commission PSC,,

Florida Power & Light gets a \$649.6 million tax cut and wants to reward its investors, not its customers?

I've had enough of FPL's corporate greed and I deserve lower electric rates.

As a 71 year old Floridian, I'm deeply concerned that Florida Power & Light is getting a massive tax cut and is passing those savings to it's shareholders. While some portion of this tax cut should be used for improving infrastructure such as solar panel electric power generation, a large portion of it should be reflected in reduced customer energy cost. Other utility customers across the U.S. have enjoyed lower energy bills as a result of a these corporate tax savings. We as Floridians, especially the middle and lower socio-economic class, should too.

With skyrocketing healthcare, housing prices and minimal increases in Social Security, a decrease in monthly bills add up for people like me.

We need lower rates, now!

Sincerely,

Mr. John Altieri
