Subject: Docket number 201800046

FPL should not be permitted to be the ONLY Florida investor-owned utility company to keep millions of dollars in excess profits—at the expense of their customers.

The Federal Tax Cuts and Jobs Act of 2017 lowered the corporate income tax rate from 35% to 21% for all corporations—including utilities. This means FPL will receive a massive financial windfall each year.

The Florida Public Service Commission should order FPL to return its excess profits to its customers and lower its rates accordingly.
