Dear Public Service Commission PSC,,

Florida Power & Light gets a \$649.6 million tax cut and wants to reward its investors, not its customers?

I've had enough of FPL's corporate greed and I deserve lower electric rates.

As I understand, the PSC guarantees FPL a rate of return. It is a quasi monopoly in our area and should return this windfall to customers and not shareholders who are benefiting from solid dividends. Or in the alternative, invest in technology to further reduce rates.

With skyrocketing healthcare, housing prices and minimal increases in Social Security, a decrease in monthly bills add up for people like me.

We need lower rates, now!

Sincerely,

Mr. John B. Thompson
