FL

Dear Public Service Commission PSC,,

Florida Power & Light gets a \$649.6 million tax cut and wants to reward its investors, not its customers?

I've had enough of FPL's corporate greed and I deserve lower electric rates.

The corporate tax rates are here to create new business and give the next generation of young Americans a chance to be creative and to enhance our position to create jobs well into the future.

As a Floridian age 63, I'm fed up that Florida Power & Light is getting a massive tax cut and is passing those savings to shareholders.

"We the people" are your source of revenue, not the shareholders.

President Trump was responsible for a generous cut in corporate taxes to create jobs and to create new business across America, not for lining your pockets.

If you do not intend to enhance the FPL infrastructure then cut your rates so that "we the people" can enjoy the benefits of the lowering of corporate tax rates. What is wrong with you people? The minute there is an incentive to grow you instead want to take the money and run. Trump did not intend it this way!!!

What we want in America is free enterprise but when it comes a time when corporate America is gouging customers then we have to act. If you call this corporate governance then our nation will never grow to be a leader, respected and an honored place in the world. Greed is not ok with me!

Customers across the U.S. have enjoyed lower bills as a result of tax savings, we should too.

With skyrocketing healthcare, housing prices and minimal increases in Social Security, a decrease in monthly bills add up for people like me.

We need lower rates, now!

Sincerely,

Mr. Nestor Matos
