Subject: Docket number 20180046

Dear Public Service Board Members:

As an investor in utilities, I enjoy the steady tax free dividends I receive.

I do not believe however that FPL should be permitted to keep the millions of windfall dollars it is receiving as a result of the Federal Tax Cuts and Jobs Act of 2017 because of the lowered corporate income tax rate. That windfall should go immediately to the rate payers as those rate payers - who are also tax payers like myself - will eventually have to pay for the increased Federal Deficit that essentially financed the Federal Tax Cuts and Jobs Act of 2017.

Essentially us tax payers and rate payers financed that Corporate Tax reduction ourselves - why should that tax payer financed boon go to a narrow slice of utility stock holders like myself who did not expect it and do not need it and do not deserve it?

I am also against it because I am sure the "Executive Class" at the FPL will somehow but some of those millions of tax payer gifted extra profits into their own pockets - wrongfully so! They did nothing to deserve it! And if they did lobby in favor of it they should be especially censured!

Please return these stolen from future taxpayers gift to American corporations back to the taxpayers/ratepayers please. Do not allow an undeserving FPL management and passive investors such as myself, to receive this federal deficit-financed tax boondoggle.

We are counting on you,
Thomas Moran
