CLERK

DFT #: 20190018

Dear Florida Public Service Commission,

Energy efficiency programs play a critical role in lowering energy bills for all customers, especially those that can least afford high energy bills.

Duke Florida's performance on energy efficiency programs is unacceptable - 0.2% of revenue. Utilities in other states like California and New England states are greater than 1.5%. Even Duke Carolinas is 1.09%.

The Florida Public Service Commission needs to set minimum targets at 1% of revenue for energy efficiencies. Florida residents want the Commission to show they care about lowering consumer energy bills and reducing our impact on the environment.

Sincerely,

In 2019, as part of FEECA (Florida Energy Efficiency and Conservation Act), the Florida Public Service Commission will set targets for energy efficiency programs for utilities. I want to make sure those targets are strong enough to benefit Floridians in a meaningful way. I appreciate your support and dedication to helping Florida's environment.
