5 Item No. 6 is a petition for approval of the

8 April 1st of each year the Commission requires that  
9 each investor-owned utility provide a standard  
10 offer contract to purchase capacity and energy from  
11 renewable energy generators and small qualifying  
12 facilities, based on the next avoidable  
13 fossil-fuel-generating unit identified in the  
14 utility's ten-year site plan.

15 FPL has identified a 1,886 megawatt natural  
16 gas-fire combined-cycle unit with a projected  
17 in-service date of June 1st, 2026, as its next
