We have been working with Jim at Florida Rural for the past 3 months and are done gathering the information with the GPS. I'm waiting for him to draw the maps. I just left a message letting him know that I got an email from you and you were asking me for an update. Will let you know when I hear back from him.

Thank you,

Carla,

Have you been able to get the legal description and map completed for the Lake Talquin Water Company service territory and system map? Please respond with a status update on these times.

Thanks.
