I talked with Phillip Friday when I was out of office. told him what the amount will change if approved by the commissioners. The only problem was that three items were decreased, electric, sludge, and chemicals. Sludge may be decreased, chemicals are unknown - close to last year, but electricity is up thru June compared to last year by \$ 1,313.25 or 31.78% higher. The plant uses the most and even thou are flow is down, the plant still runs 24 hours a day like before.

Thanks

Frank

I do not know what the rate increase will be yet- it is still a work in progress. However, I do know that our recommendation will be filed June 26 for the July 9 Commission Conference.

Do you have any idea what our rate increase will be? Trying to do some planning,

thanks

Frank
