Subject: RE: Set strong energy savings goals for Florida utilities; Docket Nos. 20190015 to 20190021

Good Morning, Ms. Perry.

We will be placing your comments below in consumer correspondence in Docket Numbers 20190015 to 20190021, and forwarding them to the Office of Consumer Assistance and Outreach.

Thank you!

Toni Hover

Subject: Set strong energy savings goals for Florida utilities; Docket Nos. 20190015 to 20190021

Dear Sir or Madam

I urge you to stand up for energy customers like me by adopting energy savings goals that will help families cut energy waste and save money on bills.

Efficiency programs play a critical role in our ability to upgrade our home energy system to save money. We want to be more energy-efficient, but the utilities are standing in our way.

Florida trails far behind other states in capturing energy savings for customers. Yet instead of proposing higher efficiency goals, many of the state's largest utilities have proposed goals of zero or close to zero. These proposals are unacceptable. It is up to you to ensure the utilities do better and to stop debilitatingly high energy bills for hard-working families.

Please support Florida families by setting goals in line with the energy savings captured by leading states. A goal of 1% is attainable, and investing in energy efficiency is good, common sense.

Thank you for your consideration,
Marian Perry
