Dear Clerk Florida PSC Clerk,

I have solar on our cattle ranch. We have FOUR arrays. Why? Because it saves us money!!!!

Why would you make it hard for Florida residents to save money? Money that will STAY in Florida..paying for home improvements, college educations, business investments, etc.

Please help Floridians by setting strong goals and help families cut energy waste and save money on bills.

Your recent proposed utility goals continue an alarming trend of utilities abandoning customers on using energy smarter.

Florida already badly trails states nationally, including in the Southeast, in capturing energy savings for customers.

Come on PSC: get on the team that represents the PEOPLE of Florida. Help us help ourselves.

Thank you for your consideration,

Sincerely,

Deirdre macnab
