Subject: RE: Set strong energy savings goals for Florida utilities; Docket Nos. 20190015 to 20190021

Good Afternoon, Frank Cummings

We will be placing your comments below in consumer correspondence in Docket Nos. 20190015-20190021 and forwarding your comments to the Office of Consumer Assistance and Outreach.

Sincerely,

Brian Schultz

Commission Deputy Clerk I
Florida Public Service Commission

Subject: Set strong energy savings goals for Florida utilities; Docket Nos. 20190015 to 20190021

Dear Sir or Madam

Your responsibility for setting energy savings goals for the state's largest utilities and establishing for the next ten years what programs will be accessible to Florida families is really important. Please, please stand up for energy customers like me by adopting energy savings goals that will help families cut energy waste and save money on bills.

We own a summer home in a small Massachusetts town, Sterling, that is showing the nation how switching to solar can make a difference. After diligent search I found a way that FPL allows a tiny portion of the power we use to derive from alternative sources. It is less than half of the solar power we use in Sterling

You know Florida trails far behind other states in capturing energy savings for customers. Yet instead of proposing higher efficiency goals, many of the state's largest utilities have proposed goals of zero or close to zero. These proposals are unacceptable.

Thank you for your consideration,
Frank Cummings
