Subject: Fwd: FPL issues

I was reading the latest news media regarding the alleged rampant underqualified contractors and subcontractors working for and with FPL (attached documentation). Please continue to keep an extremely close eye regarding FPL machinations with these issues as FPL ratepayers should NOT be "footing the bill" on FPL and/or NextEra out-of-state investment strategies, solar power "monopolization", "tax accounting sleight of hands" and "pollution" activities. FPL should be devoting all their energies in meeting and/or exceeding the 2017 National Electrical Safety Code® (NESC®) standards (which sets the ground rules and guidelines for practical safeguarding of utility workers and the public during the installation, operation, and maintenance of electric supply, communication lines and associated equipment) for storm hardening of the State of Florida electrical infrastructure. FPL should NOT be devoting all their energies requesting and lobbying for more storm hardening fees and rate increases as well as "accounting shenanigans" that should have already been completed after both Hurricane Andrew (1992) and Hurricane Irma (2017).

I look forward to your offices taking the necessary actions to address hardworking taxpayers citizens' concerns from the City of Pompano Beach, Broward County, State of Florida.

Thank you for your time in this matter.

Sincerely,
Beatrice Balboa
