Re: Petition by Tampa Electric Company for a limited proceeding to approve Third SoBRA effective January 1, 2020; Docket No. 20190136-EI

Dear Mr. Teitzman:

Attached for filing is a revised page 10 of Mark D. Ward's testimony originally filed on June 28, 2019, and which we would appreciate your distributing to the recipients of the initial filing so that they may substitute it in place of the corresponding page in that original filing.

Thank you for your assistance in connection with this matter.

Sincerely,

J. Jeffrey Wahlen

1 **A.** Tampa Electric purchased land for the Wimauma Solar
2 project, which is located in Hillsborough County. Tampa
3 Electric continues to employ a screening and due diligence
4 process to select its solar sites that includes
5 geotechnical studies, environmental surveys and wetland
6 delineation. The Wimauma site was evaluated and selected
7 after considering environmental assessments, size of the
8 project, proximity to Tampa Electric transmission
9 facilities, cost of land, and suitability of the site for
10 solar PV construction. The site is approximately 500 acres
11 in size.

12
13 LMR Solar will be located on approximately 603 acres of
14 land in Hillsborough County: Florida Renewables Partners
15 holds a 30-year lease. The location of this project was
16 selected by Florida Renewables Partners, and the lease
17 will be assigned to Tampa Electric prior to the
18 commencement of construction. Florida Renewables Partners
19 uses a similar screening and due diligence process as
20 Tampa Electric to determine site feasibility for a PV
21 solar project.

22
23 Each project is located in Tampa Electric's retail service
24 territory.
