Good Afternoon, Ellen Abramson

We will be placing your comments below in consumer correspondence in Docket Nos. 20190015-20190021 and forwarding your comments to the Office of Consumer Assistance and Outreach.

Sincerely,

Brian Schultz

Commission Deputy Clerk I
Florida Public Service Commission

Subject: Stop utilities from making it harder to save money on bills; Docket Nos. 20190015 to 20190021

Dear Florida Public Service Commission,

Hi my name is Ellen Abramson and I live in Surfside Florida

There is a global climatic crisis. Every action, movement towards cleaner, more efficient, more economically viable and affordable energy makes a difference to people and all of the eco-system.

I am writing to urge you to reject the request by Florida utilities to have a goal of zero (or nearly zero) on energy efficiency for the next ten years.

I am concerned that if the energy efficiency goals are abandoned, the utilities will stop providing the kinds of services that help people lower their power bills. People shouldn't have to choose between paying for food, medicine, or rent and being comfortable in their own homes.

Florida is ranked near the bottom of the nation in terms of energy efficiency — we should be increasing energy

efficiency measures, not abandoning them. We know that increasing energy efficiency is one of the cheapest and easiest ways to fight the global warming that's causing neighborhood flooding and other serious problems in Florida.

When this issue comes back before you, I ask you please to vote to strengthen our energy efficiency goals.

Regards,
Ellen Abramson
