**Subject:** RE: Stop utilities from making it harder to save money on bills; Docket Nos. 20190015 to 20190021

Good Afternoon, Ms. Smith.

We will be placing your comments below in consumer correspondence in Docket Numbers 20190015 to 20190021, and forwarding them to the Office of Consumer Assistance and Outreach.

Thank you!

Toni Hover

Dear Florida Public Service Commission,

Hi my name is Mary Smith and I live in Green Cove Springs.

I demand that you do what is right for the citizens of this county and protect communities and people from coal ash disposal. Please do not cater to industry's requests to weaken regulations. They should be accountable for the toxic byproducts they produce and should be encouraged to find cleaner sources of fuel.

I am writing to urge you to reject the request by Florida utilities to have a goal of zero (or nearly zero) on energy efficiency for the next ten years.

I am concerned that if the energy efficiency goals are abandoned, the utilities will stop providing the kinds of services that help people lower their power bills. People shouldn't have to choose between paying for food, medicine, or rent and being comfortable in their own homes.

Florida is ranked near the bottom of the nation in terms of energy efficiency — we should be increasing energy efficiency measures, not abandoning them. We know that increasing energy efficiency is one of the cheapest and easiest ways to fight the global warming that's causing neighborhood flooding and other serious problems in Florida.

When this issue comes back before you, I ask you please to vote to strengthen our energy efficiency goals.

Regards,  
Mary Smith  
411 Walnut St.  
Green Cove Springs, FL 32043. ■
