**RE:** Docket No. 20190135-TP - Petition of North American Numbering Plan Administrator on behalf of the Florida telecommunications industry, for approval of relief plan for the exhaust of the 850 area code.

Attached is a document outlining area code split options for the 850 area code sent by NANPA per staff's request. Please add to docket file. If you have questions please contact me at 413-6504.

# NANPA

October 28, 2019

To: All 850 NPA Code Holders and Other Industry Members (Florida)

Subject: Split Options of the 850 NPA

This is to inform you of split options of the FL 850 NPA requested by the Florida Public Service Commission (PSC). It is understood that NANPA did not present any of these alternatives at the relief planning meeting that was held on May 16, 2019 and the industry only recommended the overlay. However, the PSC would like to have these split options listed in Docket No. 20190135.

The split alternatives do not meet the criteria set forth by the INC NPA Code Relief Planning and Notification Guidelines, Section 5.0 (g): **In the long term, the plan shall result in the most effective use possible of all codes serving a given area. Ideally, all of the codes in a given area shall exhaust about the same time in the case of splits. In practice, this may not be possible, but severe imbalances, for example, a difference in NPA lifetimes of more than 10 years, shall be avoided.**

If you have any questions, please feel free to contact me on 571-363-3824 or via email at the address below.

Sincerely,

Heidi A. Wayman
