Office of Commission Clerk - Florida Public Service Commission
2540 Shumard Oak Boulevard, Tallahassee, FL 32399-0850

Re: Docket: 20190061

Dear Mr. Teitzman,

At 7-Eleven reducing our carbon footprint is important. While we've taken big steps over recent years through strategic investments in several areas of energy and sustainability, we also look to our local utilities to provide programs that will help us as we work to ensure our environmental impact is minimized in the communities our customers and employees live and play within.

That is why 7-Eleven is supporting Florida Power and Lights recent proposal to add more clean energy to Florida's electrical grid through their SolarTogether proposal (Docket # 20190061).

As a large national customer with a significant footprint in your company, we value our partner with FP&L and see this opportunity as easy to manage and implement within your state. If approved, the SolarTogether program would support 7-Eleven sustainability goals with over 500 7-Eleven locations within the FP&L coverage area.

7-Eleven supports FPL's SolarTogether proposal. Please give the proposal your full consideration.

Thank you,

Ann Scott
Sr. Director of Energy, Engineering and Store Planning
