Mr. Eggers,

The Florida Public Service Commission has not received a response to its staff's First Data Request to Petitioners, dated October 4, 2019. The response from Florida Power & Light Company (FPL) indicates that the net metering issues between your client and FPL have been resolved. Absent additional information from you, staff will base its recommendation to the Commission on the information currently in this docket file. Please call me at the number below if you have questions or have additional information you would like to provide.

Respectfully,

Charlie Murphy  
Senior Attorney  
Florida Public Service Commission
