Application for rate increase in Polk County for

Deer Creek Golf and Country Club

Docket NO. 20190071-WS

Name: William Bopra

Address: 42759 Highway 27

Davenport Florida 33837

13 January 2020

I believe that the 300% increase in water usage for the Fawn Ridge Deer Creek UDI is way out of line due to the following factors: Being that most of the Deed holders at Fawn Ridge UDI are on fixed incomes and are only receiving yearly income increases of only 1%-2% this rate increase would be devastating. Costs for medical expenses are ever increasing as is disability insurance. The area businesses would lose an enormous amount of money due to fewer people coming to the area during the winter months and spending money in restaurants and area shopping centers.

Deer Creek Utilities has done very little to make repairs to stop an estimated 30% water they are claiming to be losing. Water and Fire protection infrastructure are already in place and metered at Fawn Ridge and Fawn Ridge owners pay for every drop of water entering our park. Most municipalities are granted small increases each year but 300% is out of reach for myself and my wife and it would crush our dream of being able to escape the winter cold of Michigan.

Please vote no on this outrageous increase.

Thank You

William Bopra and Penny Bopra

Fawn Ridge at Deer Creek UDI owners
