Subject: Docket #20190071-WS

Dear Commissioners,

Once again, I write to implore you to vote "NO" or to at least consider a reasonable rate increase in this matter. I have previously mailed and emailed my objections to any considerations of the proposed 300% rate increase. My husband and I have also mailed a letter with more in-depth objections to this proposal. We both feel that any unreasonable increase would force us to seriously consider relocation from Florida. Since we have established ourselves here in this area with health professionals and friends, we wish to remain here. Florida has become our home. However, to be caught up in such a tangle of irresponsibility of someone else's mismanagement and held accountable for such action is outrageous! We are on a fixed income and have learned to live as such and are accountable for our own debts and responsibilities. We also know to be prepared for the future to some degree. But we do not expect to have to be accountable for someone else's incompetence. I simply ask that you keep this in mind when this case comes up.

Thank you again for your time and consideration,

Patricia Fore
