Re: Docket No. 20200057-EG – Response to Staff’s First Data Request

Dear Mr. Teitzman:

Attached for filing on behalf of JEA is JEA’s response to Staff’s First Data Request.

Thank you for your assistance in connection with this matter.

Sincerely,

/s/ Brooke E. Lewis

1. Please describe the avoided unit used in the Company’s cost-effectiveness evaluations of the programs in its DSM Plan. Is the avoided unit the same as the one used in the goal setting docket? If not, please explain why and the differences in avoided costs resulting from the change.

Response to Data Request No. 1

JEA’s 2029 build has been pushed back due to lower forecasted demand per the 2020 Ten Year Site Plan filing. Both summer and winter peaks are lower. The implementation of JEA’s FEECA programs for the 2020-2024 period will not result in the avoidance or deferral of any planned supply side unit expenditures.

2. Please provide the historic and projected portion of a monthly residential customer bill (for a 1200/kWh-month) associated with the DSM Plan, in nominal dollars. Please provide an electronic version of the table below in Excel format with your response.

Response to Data Request No. 2

Year	Residential Customer 1,200 kWh/mo
	Monthly Bill Impact (\$)
2015	\$0.15
2016	\$0.23
2017	\$0.31
