DESCRIPTION: Duke Energy (Bernier) - (CONFIDENTIAL) Certain information provided in the 2020 recommended order from DOAH, where the final hearing was conducted on 2/4/20 through 2/5/20, Exh A [to request for confidential classification (DN 02631-2020)].

Pursuant to Section 366.093, Florida Statutes (F.S.), and Rule 25-22.006, Florida Administrative Code, Duke Energy Florida (DEF or Company) requests confidential classification of certain information provided in order to compose the Recommended Order (RO) submitted by the Division of Administrative Hearings (DOAH). Due to concerns regarding the maintenance of confidentiality with respect to the information subject to this request, the Florida Public Service Commission by Order No. PSC-2019-0484-FOF-EI, and Document No. 10846-2019, sent this matter for hearing to the Florida Division of Administrative Hearings.¹ The information provided by DEF for the RO was available to the Office of Public Counsel, the Florida Industrial Power Users Group, White Springs agricultural Chemicals, Inc., d/b/a PCS Phosphate – White Springs, and Staff of the Florida Public Service Commission, collectively referred to as the “Parties” to the proceeding at DOAH concerning operations at Plant Bartow.

The Company is claiming confidentiality of its filing under Section 366.093(3)(d), F.S., and Section 366.093(3)(e), F.S. Per the Statute, propriety of confidential business information includes, but is not limited to: Subsection (d) “[i]nformation concerning bids or other contractual data, the disclosure of which would impair the efforts of the public utility or its affiliates to contract for goods or services on favorable terms,” and Subsection (e) “[i]nformation relating to competitive interests, the disclosure of which would impair the competitive business of the provider of the information.”

¹Order No. PSC-2019-0484-FOF-EI, Issued November 18, 2019, Docket No. 20190001-EI, *In re: Fuel and purchased power cost recovery clause with generating performance incentive factor.*

More specifically, the information at issue relates to claimed proprietary and confidential operating procedures, drawings, and technical information regarding a third-party's (to DEF) component/equipment design and operation parameters. DEF asserts that if it cannot demonstrate to its third-party partners that the Company has the ability to protect those third-parties' confidential and proprietary business information, it will be less likely that DEF can secure contracts that benefit its customers.

Staff has previously reviewed the subject information as well as the Company's confidentiality request. It is staff's opinion that the information subject to this request meets the criteria for confidentiality contained in Section 366.093(3)(d), F.S. and Section 366.093(3)(e), F.S.
