Re: Docket No. 20190166-WU, HC Waterworks

Dear Commissioner Brown:

In follow-up to the rate case proceeding pertaining to HC Waterworks, Docket No. 20190166-WU, HC Waterworks, on May 5, 2020, in which the Public Service Commission conducted a public hearing on the request for a rate increase by HC Waterworks and noted concerns about the quality of service provided by HC Waterworks to customers of HC Waterworks, please be advised of the following email message that I received from a customer yesterday, May 20, 2020, stating that he failed to promptly receive a boil water message from HC Waterworks:

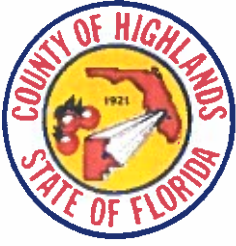

From: Manny Ernhart <mfkqe2@gmail.com>

Subject: Re: HC Water Rate Increase and Water Quality

Mr. Commissioner:

Just as a point of interest, got up this AM to no water pressure on Lake Josephine HC Water System. After a few hours I contacted HC water's local person in charge and was told they had a main break. While I understand these things can occur, I ask they had not contacted users and was told it was on the TV and Radio stations. When I asked which stations they replied FOX and all of them which proves to me he either does not live here or is a fool. When asked about a boil order he said most likely and would be on TV or radio !!! THIS ONCE MORE INDICATES THEY DO NOT DESERVE A RATE INCREASE BASED ON THE SERVICE THEY PROVIDE. I guess one needs to check TV/Radio before each water usage ?

Thanks for your interest;
