Subject: Docket 20200056-EG

Public Service Commissioners:

FPL needs to do more than help just 3% of its low-income customers with energy efficiency, and certainly much more than the 1% suggested by your staff. PSC commissioners, please reject your staff's recommendation that would cruelly restrict access to the low-income program.

Now, more than ever, is the time for the PSC to take action to expand access to the low-income program as Floridian's struggle to recover from the economic effects of the

pandemic. When you vote on FPL's plan on July 7th, please meet your responsibility to our state's low-income customers.

For additional information, please see "FPL playing hardball with low-income customers | Opinion" at <https://www.sun-sentinel.com/opinion/commentary/fl-op-com-fpl-customers-public-service-commission-20200702-bev5c3b4mzefviapt5v22rnz6a-story.html>

Thank you for your consideration of this request.

Rosa Castro Feinberg, Ph. D.
Co-Chair, Government and Media Relations
LULAC Florida
