RE: FPSC Inquiry 1340945C

Dear Mr. Sageser:

The Governor's office forwarded a copy of your email regarding Florida Power & Light Company (FPL) to the Florida Public Service Commission (FPSC). The FPSC regulates investor-owned electric, and natural gas utilities throughout the state, and investor-owned water and wastewater utilities in those counties which have opted to transfer jurisdiction to the FPSC. The FPSC has authority in the telephone industry which is limited to the Lifeline Assistance Program, Florida Relay Service, and pay telephone service. We appreciate the opportunity to respond directly to you.

You expressed concern about FPL's petition for approval of optional electric vehicle public charging pilot tariffs. We have added your E-mail to the correspondence side of Docket No. 20200170.

Thank you again for expressing your views. If you have any questions, please contact Ms. Ellen Plendl at 1-800-342-3552 or by fax at 1-800-511-0809.

Sincerely,

Shonna McCray
Regulatory Program Administrator
Florida Public Service Commission
1-800-342-3552

Subject: "FPL Charging stations tariff"

From: Ron Sageser <chiefsaggy@gmail.com>
Subject: FPL Charging stations tariff
County: Brevard

Message Body:
FPL proposing \$0.30 cents per kilowatt hour tariff to electric car owners recharging stations.

Tesla 100D (100 kwh) would cost \$30.00 to charge. Currently less than \$12 dollars to fill up.

Where's the incentive to go electric if it costs more than liquid fuel? Not to mention, cost to operate is a VERY BIG part of the decision to buy a vehicle as pricey as EV's.

Where's the incentive to go green?

Please DO NOT allow this exorbitant and unreasonably high greedy tariff to pass.

Thank you,
Ron Sageser
