Subject: Docket No. 20200181; Fix FEECA Now

Dear Clerk Florida PSC Clerk,

Florida's largest utilities badly trail leading utilities in the Southeast and across the nation in delivering energy savings to customers. That's short-sighted because energy efficiency is the quickest, cheapest, and cleanest way to meet our energy needs and tackle climate change – but outdated practices in setting state energy efficiency goals are holding us back. Let's fix that through this rulemaking process.

Energy efficiency programs have taken on new importance in light of the economic fallout from the COVID-19 crisis. Families should not have to make a choice between paying a power bill or buying essentials like food and medicine. Now is the time to remove the roadblocks to energy savings in order to provide more and better energy efficiency programs to customers.

Retrofitting residential and commercial buildings will create JOBS in Florida which cannot be exported to foreign countries.

Thank you for considering my comment.

Sincerely,
Frank Arenas
Coleman, FL 33521
