Dear Clerk Florida PSC Clerk,

Let's get our act together and have Florida lead the nation in energy efficiency programs. That goes for consumers at home, businesses, transportation, as well as the utility industry.

You can help by considering all the ways to get utilities to do more on efficiency, in particular for low-income customers. Please use this opportunity to get input from the public and experts in this field before rushing to revise the rule on conservation goal-setting.

Thank you for considering my comment.

Sincerely,
Diane Desenberg
