Subject: I support Solar Choice in the Sunshine State - Docket: 2020-0000

Dear Clerk Florida PSC Clerk,

This year, our condo association evaluated installing solar energy for our building. Because of the uncertainties of Florida's regulatory policy, we delayed the decision to install solar panels.

In order for Floridians to be able to harness the solar power that is there for the taking, the current net metering policy that allows compensation for the solar energy that we provide to the electricity grid must be protected.

There are many more large building likes ours that are ready to help provide clean solar energy. Help us to be sustainable by allowing a fair return on our investment.

Sincerely,  
Jenny Duffey  
Sarasota, FL 34236
