Subject: I support Solar Choice in the Sunshine State - Docket: 2020-0000

Dear Clerk Florida PSC Clerk,

I added solar panels to my home in St. Petersburg for a multitude of reasons benefiting myself and the environment. It was a big investment, but well worth it. I was proud to be a part of Florida's nationwide leadership in producing clean energy, growing jobs and technology to benefit our local environment and the Health of the planet.

Our current net metering rule allows a number of Floridians to grow a segment of the solar market by choosing to power their homes and businesses with Florida's number one natural resource, sunshine. Florida citizens and customers overwhelmingly support the current successful net metering policy allowing compensation for the solar energy they generate and provide to the electricity grid.

Please protect the opportunity for business and homeowners to generate clean solar power and support local jobs by preserving our successful net metering rules here in Florida.

Sincerely,
Patricia Kovack-Tezzas
Saint Petersburg, FL 33702
