Subject: Protect our solar rights! Docket: 2020-0000

Dear Florida Public Service Commission,

You have a duty to protect the environment and to serve the best interests of Florida residents and you can help do those by strengthening net metering here in Florida.

Eliminate the 10Kw Tier 1 restriction on home solar and eliminate the onerous and counterproductive requirement for an insurance policy on Tier 2 systems. Residents want to add electric cars and a 10 Kw solar system is too small for household and electric vehicle needs.

The solar industry provides many jobs in Florida. And solar panels and batteries contribute to the resilience of the electric grid and reduce greenhouse gas emissions.

Please defend our solar industry. Please help our solar workers, business owners, and homeowners by preserving and improving net metering here in Florida.

Sincerely,
Walter Kehler
