Subject: Protect our solar rights! Docket: 2020-0000

Dear Florida Public Service Commission,

I installed solar panels on my roof approximately 1 year ago and am happy that most of the electricity in my house is produced by the sun. In the winter I produced more power than I used. I do think that that I should be compensated for the power I produce and is used by other people.

The middle of a public health and economic crisis is not the time to create more uncertainty by making changes to solar rights that will hurt jobs and take money out of people's pockets.

Please defend solar workers, business owners, and homeowners from additional uncertainty by preserving net metering here in Florida.

Sincerely,  
beatriz portela  
444 Miller Rd Coral Gables, FL 33146-2850
