Dear Ms. Smithe:

Thank you for sharing your insights about net metering with Commissioner Graham.

As with most issues, there are competing public purposes to be considered, and it's helpful to have your point of view so effectively articulated. We are putting your letter into the file for net metering so it will be available to all commissioners, staff, and the public.

A preliminary workshop on net metering will be held September 17 at 9:30 a.m. Although state buildings are closed to the public, all commission meetings are streamed live and can be found at floridapsc.com.

We appreciate your interest.

Sincerely

A handwritten signature in black ink that reads "Jim A. Varian".
