CUSTOMER COMMENTS
I wouldn't mind paying more if I had water I could drink. Very bad tasting water, had to shut off my ice maker and buy ice because water is so bad. I buy water for drinking and cooking. It's ridiculous and they shut off the water without warning.
When I wash my clothes, it smells like I have added bleach to my wash, which I have not.
Water was rusty looking, called them they said it must be my hot water heater but rust went away the the next day.
