Dear Florida Public Service Commission,

I am very concerned about attempts to decrease or stop altogether solar net metering. Here we are in the midst of a COVID 19 crises which has eliminated many jobs and you are proposing to thwart increasing employment opportunities in this "clean" industry of the future. We need solar more than ever to increase our resilience during times (hurricanes),, reduce transmissions and help local peak usage.

The climate is a-changing and Florida needs to be forward looking on energy, not bringing it up by the caboose.

Sincerely,  
Joyce Palmer
