Subject: Protect our solar rights! Docket: 2020-0000

Dear Florida Public Service Commission,

I power my home with solar because I care about climate change and believe we should be doing everything possible to combat it. Now is not the time to dispense with the net metering rule. Even with tax incentives and net metering parity, rooftop solar only barely makes economic sense for people who live paycheck to paycheck. We should be encouraging rooftop solar, not penalizing those who have invested in it for the good of the community and the protection of the environment.

Sincerely,
Jan Allyn
