Subject: Protect our solar rights! Docket: 2020-0000

Dear Florida Public Service Commission,

Duke is our energy provider. My solar system has recorded the following since installation:

We have experienced forty (40) power failure events for a total of fifteen (15) backup hours. Our solar is more reliable than Duke.

Please keep net metering so solar is affordable. There are more important things than excessive power company profits. The physical health of children as an example.

With sufficient and clean solar no more utility power plants will need to be build. Reducing the garbage burden of our planet. Please thing long term, not about short term profits.

Sincerely,  
James Ringold  
Dunedin, FL 34698
