Subject: Dockets No. 20200051-GU, 20200166-GU

The price of natural gas, like oil has been dropping for some time, see the chart below (<https://www.macrotrends.net/2478/natural-gas-prices-historical-chart>)

The predictions for 2021 and beyond continue this low price trend (<https://tradingeconomics.com/commodity/natural-gas>)

The price is significantly lower than in 2008 and so the requirement for a large rate hike by Peoples Gas is questionable.
