To whom it may concern,

I am writing today to express my concern over the rubber stamping of rate increases for water supplied by Utilities, Inc., which seem to be coming at a more frequent rate as the years go by. They fooled you last year and the year before and the year before that, so they'll try again until somebody really pays attention, and reads the data in earnest. Our water bills have increased exponentially over the last several years, and border on abuse.

It seems to me that in order to obtain a rate increase, they are required to submit reports justifying these increases. Are these read? Are they verified by an independent source who knows how to winnow out the wheat from the chaff inserted there as a smokescreen? I sincerely doubt the veracity of your oversight.

I am forwarding this letter to my representatives and to our Governor.

Bruce S. Bevitz, m.d.
