Subject: I support Solar Choice in the Sunshine State - Docket: 2020-0000

Dear Florida PSC Commissioners,

It sounds to me like deciding to decrease the benefits of net metering in Florida is focusing on big business rather than what will benefit the people of Florida.

Net metering benefits in multiple ways. We are already suffering economically and this removes one more financial benefit to customers. Second, less people will move to clean energy and the world is struggling to reverse environmental global issues.

Our current net metering rule all

Please protect the opportunity for business and homeowners to generate clean solar power and support local jobs by preserving our successful net metering rules in Florida.

Sincerely,
Jennifer Williamson
