Dear Florida PSC Commissioners,

PLEASE do not roll back solar. In these current times with storms & fires, it's so very important that we harness nature vs ruin it.

FLORIDA must be FORWARD thinking as a state!!!

FPL is & remains profitable (& they deserve to make a profit as a corporation) HOWEVER, we MUST begin to be more self sufficient as households & a state.

Energy & water are the 2 things that must utilize breakthroughs in technology wherever & whenever possible.

That's how the wheel was invented. Can you imagine ever going back???

Sincerely,
Ann McKenna
