Subject: Utilities,Inc.

To whom it may concern:

This email is in reference to Docket number 20200139-WS I am quite concerned regarding Utilities, Inc's multiple increases to my water and wastewater rates. I understand that they will be asking for an additional 25% increase in November of 2020. I am also aware that on October of 2019, they were heavily fined by the State of Florida for dumping millions of gallons of untreated sewage into a tributary of the Wekiva River.

Sincerely,
Mrs. Toby Robinson
