Attn: Adam Teitzman

I'm against this. 20200092-E-1

I just read an article about the SPP and find it ludicrous that any funds are being spent on underground cables benefitting a few and financially impacting many. I think efforts need to be made in being more proactive on the basis of maintenance, flora and fauna removal and to reduce grid dependence. No one should be without power for 11+ days after a hurricane and we should not have to bear the expense of the few that would be helped by this. Thank you for your time and consideration.
