Subject: Stop the Electric Utilities' Boondoggle (Docket 20200092-E1)

Sep 22, 2020

Florida PSC PSC PSC  
FL

Dear Florida PSC PSC,

We are in the middle of a pandemic with unemployment rampant in our state. Right now, Floridians need help making ends meet paying day-to-day expenses, including rising healthcare costs and prescription drug prices, as well as increasing rents and food costs.

What Floridians do not need now is to pay for services that benefits no more than 5 percent of ratepayers.

I am a single divorced lady over 65 on a fixed income like thousands of others trying to get through tough times. I live in the city of Milton proper right near the main fire house and waited three days for power to be restored after hurricane

sally. Many of my neighbors are elderly some in poor health. A rate increase will not help us survive live or get our power back sooner. We are all on fixed incomes trying to enjoy the bit of time we have left. The power companies are not going to bury lines or help us trim trees back we cant afford to have taken down. We should not have to decide between electric food or medicine when our income is not high. Please reconsider giving the power companies 12 billion in profits your residents need you all of us need you to just say no to greedy corporations.

Sincerely,

Ms. Karen Eufemia
