Dear Florida PSC PSC,

We are in the middle of a pandemic with unemployment rampant in our state. Right now, Floridians need help making ends meet paying day-to-day expenses, including rising healthcare costs and prescription drug prices, as well as increasing rents and food costs.

What Floridians do not need now is to pay for services that benefits no more than 5 percent of ratepayers.

In your very name, it states "Public Service Commission".

What does that mean? Maybe a license to steal more money from the people who are already having a hard time???

This is awful. The "FLORIDA PUBLIC SERVICE COMMISSION" is even worse. They allow everything that the Electric Company's want with no regard to the cost that is saddled onto the general public, who, by the way, are not making the money that they are. I wondered why Florida Power is constantly offering all of these plans for an extra cost to cover the things they should have been taking care of for years and now that "their equipment has become outdated and less than par, they want us suckers to pay for it. Everything is going up and how are people without income supposed to afford being raped by all of these big companies over and over? I am angry, and I hope a lot of other people decide that enough is enough!!!

Sincerely,

Ms. Charlene Blevins
