Dear Florida PSC PSC,

We are in the middle of a pandemic with unemployment rampant in our state. Right now, Floridians need help making ends meet paying day-to-day expenses, including rising healthcare costs and prescription drug prices, as well as increasing rents and food costs.

What Floridians do not need now is to pay for services that benefits no more than 5 percent of ratepayers.

As a customer of Florida Power and Light I see no need to subsidize this company which claims it is investing in expanding and modernizing.

I live in an area that has a good part of its transmission lines underground.

As a retiree living here for more than 20 years, I don't believe that providing public funds to a company that with the present extra low interest rate can get their financing from the private market. Healthcare, schools, transportation and the huge investments needed to contain the growing dangers of Climate Change should be priorities.

Not this boondoggle under consideration in Docket 20200092-E1.

Sincerely,

Mr. Bruce Jay
