Subject: I support Solar Choice in the Sunshine State - Docket: 2020-0000

Dear Florida PSC Commissioners,

Solar energy not only helps protect our beautiful planet but provides a lot of jobs for our communities. There is no reason for these multibillion dollar companies to be able monopolize how we get our energy. It's the way of the future and something everyone should have the right to do. On top of everything we are in a very serious pandemic and the burning of fuels doesn't help. The pandemic also has caused lots of families to lose their jobs or be significantly cut back and it's pathetic that these billionaires want to take away the opportunity for families to better themselves by saving a little money on their utilities. There are SO many reasons for solar to be available for people and only one reason that utilities don't want it to be, greed. I think that speaks for itself.

Sincerely,
Tyler Gillespie
