Florida PSC PSC PSC
FL

Dear Florida PSC PSC,

We are in the middle of a pandemic with unemployment rampant in our state. Right now, Floridians need help making ends meet paying day-to-day expenses, including rising healthcare costs and prescription drug prices, as well as increasing rents and food costs.

What Floridians do not need now is to pay for services that benefits no more than 5 percent of ratepayers.

For all of the stated reason made by the AARP as to why there should be a hold on the proposed SPP by the utility companies in FL, I call upon you to act in that fashion and place such a hold with immediate effect until such time as all of the SPPs comply completely with the PSC's own rules (25-6-030).

Failure to do so on you part will suggest that you and your organization are in collusion with the said utility companies for purposes other than taking correct care of the end users' rights to have all such proposed increases in costs scrutinized for honest and fair outcomes.

Sincerely
Robert Matthews
