Dear Florida Public Service Commission,

Dear Commissioners.

I have supported renewable energy since I was 16 years old and now I am 46, that is, for 40 years. About 3 years ago we put up panels at home, to our surprise not only did the cost of electricity increase, but we also increased property taxes. If that is an incentive? We are doomed. The program in my opinion is a scam and I would not recommend it to anyone. I call the company and they tell me it is the fault of FPL I call FPL and they tell me it is the fault of the company. It's a mafia

Sincerely,
